PLAN TO ABUNDANCE

Europa: Version 1.0

A Letter To You

Local Cinnamon Oil farmer, Sri Lankan.
Didier Merckx, CEO BioKissed,
13-04-1985, Belgian

Are you among Indonesia's first leaders of a brand-new global network marketing company?

Hello, welcome to BioKissed.

BioKissed is an eco-conscious, product-based network marketing company that loves nature. When I dreamed of building this, it had to be on a foundation of honesty and integrity. BioKissed is a company where everybody is a winner, from farmers, suppliers, manufacturers, customers, and members to BioKissed itself. And most of all, the beautiful planet we inhabit.

Being an entrepreneur is not new to me.

My first profession was network marketing, starting at age 20. I've been a top leader in multiple network marketing organizations. It's something I have always lived for, always embraced, and the dream never ended.

I am passionate about network marketing, the relationships and depths it can create, and the positive energy it can bring.

Network marketing is like art to me. We live the stories and share them to inspire and help others to do the same.

The best success to be had is a shareable one.

So, I felt it was time to offer fellow marketers a lifetime opportunity. After 16 years on the market as a leader and managing teams globally of over 40,000 members, I realized the do's and don'ts in the industry, so everything started in the function of you: the member.

Together with my team, we've analyzed the top 25 marketing companies globally and made the compensation plan, mission, vision, and values more significant, bigger, and bolder.

I believe we've created a plan like no other, offering you a bright, profitable future.

For me, giving is living.

A Letter To You

Here is where I understood my lasting happiness to be found.

And why BioKissed has been created with giving and compassion at its core.

We will change thousands of lives along our journey through multiple charity projects, working at the grassroots to make a real difference.

Aiming for global success for BioKissed means only more lives can be positively impacted.

After an autoimmune disease (Sarcoidosis), I've learned to trust and embrace nature's intelligence and healing powers. From this, I commit to creating products that will naturally uplift our health and well-being and have a sustainable and positive impact on Mother Nature.

We must protect Mother Nature.

So with this, I want to build an eco-conscious, vibrant community with creativity, independence, motivation, inspiration, passion, teamwork, success, financial freedom, and life-changing experiences as the foundations.

You attract who you are; so I'm incredibly excited and humbled that you are joining me on this path.

I can't wait to meet you.

SEDEKAH AIR

PLASTIC XCHANGE

Giving is Living

Sedekah Air

Clean water is a basic human necessity and right; unfortunately, roughly 785 million people lack access to consistently clean water.

That's one in 10 people on the planet. Water is the life force of Mother Nature and, therefore, is a passionate topic within BioKissed, where, alongside our members, we want to make a tangible difference.

Partnering with Indonesia's Sedekah Air will allow us to begin to help those closest to us first. With 75 million Indonesians without clean water access, it's a vital project to be a part of. Many of the islands have a dropping water table, meaning getting access to water is becoming more challenging.

Extensive technical research goes into the work at Sedekah Air, depending on the conditions of each area. As a result, the organization runs multiple projects, including:

- ✓ Well drilling.
- ✓ Water pipes.
- ✓ Filtering or Mini Water Treatment Plant.
- ✓ Dropping water or providing drinking water.
- ✓ Water conservation, technology development, and education.

Learn more about Sedekah Air <https://sedekahair.org>

Giving Is Living

Plastic XChange

The mounting global plastic crisis demands action to curb this toxic trend. It begins with practical changes in our use and re-use of plastic, but more importantly, it requires education. Bali and Indonesia face a peak in the plastic problem, making it a cause close to BioKissed's heart. That's why we've chosen to collaborate with Plastic XChange.

In their own words:

Plastic XChange is a sustainability movement that empowers communities to change their waste behavior through dignity-based exchange systems that result in cleaner, healthier environments. It allows communities to prosper through “Edu-action” (education in action) and a barter system for a cleaner and healthier environment.

The community-driven movement continues to grow through education, action, environmental commitment, economic prosperity, and personal responsibility. The result turned into the most extensive cleanup in the history of Bali. This model could be replicated in other villages to create a more significant impact.

✓ **10€ buys 10 kg of rice, feeds 40 people daily and cleans 40 kg of plastics.**

Long term:

✓ BioKissed and Plastic XChange, in partnership, are working toward an end-to-end solution to the plastic crisis. Not just shipping the collected plastic off into the landfill but creating the end solution here in Bali.

Heartbeat Bonus Pro (HB Pro)

Plan A Cultivation Period

Every six months, BioKissed organizes a national event to reward members with shares derived from 1% of its nationwide profit pool.

Categories of Shares Earned & How to Qualify:

- **5 shares:** When you receive Heartbeat Bonuses 1, 2, and 3 within 30 calendar days.*
- **1 share:** When you receive Heartbeat Bonuses 1, 2, and 3 within 60 calendar days.*

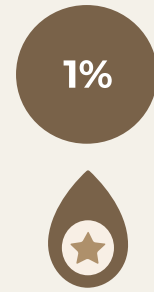

*The countdown of 30 or 60 days starts as soon as you receive HB1.

How to Determine the Value per Share:

- For example, the nationwide profit pool in the past 6 months is 500.000€.
- So, the pool allocated for shares is 5.000€ or 1% x 500.000€.
- For example, 3 members won the 5-share category. Thus, the total shares for this category is 15 shares or 3 members x 5 shares.
- For example, 5 members won the 1-share category. Thus, the total number of shares for this category is 5 shares or 5 members x 1 share.
- Thus, the total shares are 20 shares (5 shares + 15 shares).
- The value per share is 250€ (5.000€ divided by 20 shares).
